Overview

The civil aircraft industry is one of the most globalized sectors. From the commercial operation of domestically produced large aircraft to international collaboration on wide-body passenger planes, China is integrating into the global aviation supply chain with growing confidence.

15th Annual Civil Aircraft Industry Eco-Conference 2025 was successfully held on 14th-15th, May in Shenyang City, Liaoning Province. The conference was hosted by Chinese Society of Aeronautics and Astronautics, co-hosted by AVIC Shenyang Aircraft Corporation, co-organized by Liaoning Aviation Industry Development Promotion Association, Liaoning Society of Aeronautics and Astronautics, supported by Shanghai Society of Aeronautics, organized by AVIC SAC Commercial Aircraft Company Ltd., Galleon (Shanghai) Hanglian Information Technology Co., Ltd., journal supported by Advances in Aeronautical Science and Engineering.

Under the theme of “Innovation Empowerment, Breakthrough to Green Sky, Global Collaboration, and Build New International Competition in Civil Aircraft industry”, the two-day conference featured 21 special presentations and 1 panel discussion, attracting over 100 enterprises to participate. More than 400 professionals from government agencies, aircraft OEMs, of aircraft components and materials manufacturers, aircraft systems suppliers, measuring/testing/machining equipment suppliers, and renowned domestic and international universities attended the conference, to jointly create a new ecosystem for enhanced civil aircraft design&manufacturing.

Participants said that through this event, they further understood the current hot spots of civil aircraft industry, met new partners and found new business opportunities. We hope to add to the development of China's civil aircraft industry by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.
