2024 第六届航空数字互联技术大会

6th Aviation Digital Operation Congress

Focusing on connected aircraft technology development

6.20-6.21 浙江省杭州市 Hangzhou City, Zhejiang Province

Overview

The iteration of interconnection technology means the innovation of business model and the subversion of the traditional industry, and the ground and air synergy by multiple parties will become the golden key for the aviation business. Operations and maintenance, aviation logistics, air traffic control, every update of interconnection technology, progresses the future of intelligent aviation system.

The conference was hosted by Shanghai Society of Aeronautics, co-hosted by Hangzhou City Yuhang Municipal Government and COMAC Information Center, supported by Chinese Society of Aeronautics and Astronautics, Commercial Aircraft Corporation of China Ltd., Zhejiang Society of Aeronautics and Astronautics, co-organized by Civil Aircraft Operation Support Technology Sub-committee of SSA, Digital Technology Sub-committee of SSA and Zhejiang Loong Airlines Co., Ltd., organized by Hangzhou City Yuhang District Pingyao Municipal Government, Hangzhou International Innovation Institute of Beihang University, Hangzhou Dingsheng Industry Group Co., Ltd., Tianmushan Laboratory and Galleon (Shanghai) Consulting Co., Ltd.

The two-day conference centered on the theme of "Iterating Civil Aviation Digital Intelligence Technology, Promote the Big Interconnection of Space, Sky and Ground". A total of 14 speeches were delivered and 2 panel discussions were organized, attracting the participation of more than 60 enterprises and more than 200 representatives from the government, bureaus, airlines, OEM, industry-leading R&D units, senior research institutes, and outstanding equipment manufacturers and suppliers to jointly promote the development of the aviation Internet industry.

Participants said that through this event, they further understood the current hot spots of connected aircraft industry, met new partners and found new business opportunities. We hope to add to the development of China's connected aircraft industry by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.
