2024民航飞行与运行技术论坛

Civil Aviation Flight and Operation Technology Forum 2024

9月5日至6日 中国商飞嘉兴基地 September 5th-6th COMAC Jiaxing

Overview

With the increasing competition in the global aviation market, how to train internationally competitive pilots is an important issue currently facing the industry.

The conference was co-hosted by Shanghai Society of Aeronautics, Flight Technology Branch, CSAA, Civil Aviation Flight University of China, Supported by Chinese Society of Aeronautics and Astronautics, COMAC Customer Service Training Base, organized by, COMAC Shanghai Aircraft customer Service Co.,

Ltd., Jiaxing Airport Development and Construction Co., Ltd., China Eastern Airlines Technology Application R&D center co., Ltd., Key Laboratory of Flight Techniques and Flight Safety, CAAC, Sichuan Civil Aviation Flight Technology and Flight Safety Engineering Technology Research Center, School of Flight Technology, CAFUC, Galleon (Shanghai) Consulting Co., Ltd., co-organized by General Aviation Branch, CSAA, Aviation Meteorology Branch, CSAA.

A total of 19 speeches were delivered, attracting the participation of more than 30 enterprises, and more than 230 representatives from the government, bureaus, flight technology departments of airlines, flight management departments, training centers, flight schools, simulator development units, human factors engineering companies and other industrial fields gathered to promote the development of civil aviation flight and operation technology industry.

Participants said that through this event, they further understood the current hot spots of flight technology industry, met new partners and found new business opportunities. We hope to add to the development of China's flight technology industry by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.

Testimonials

A very valuable forum to learn about advanced transport aviation pilot training systems.

Autoflight

This year's forum covers a wide range of topics and the invited lecturers are of high professional standard, which is very beneficial.

Spring Airlines

This year's forum has contributed to improving the quality of training in flight schools and meeting the manpower needs of civil aviation development, and has been very rewarding.
