# 2024 第十二届国际智慧机场发展论坛

The 12<sup>th</sup> International Smart Airport Development Forum 2024

2024年7月4至5日 中国·上海 July 4<sup>th</sup>-5<sup>th</sup>, 2024 Shanghai, China

## Overview

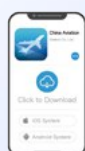

In recent years, with the continuous growth of airport business volume, new national policies and new technologies under the dual drive, China's smart airport construction has entered the "fast track".

The conference was hosted by Shanghai Society of Aeronautics, co-hosted by Technical Branch of Airport Operations, CSAA, supported by Chinese Society of Aeronautics and Astronautics, Shanghai Airport Authority, TravelSky Technology Limited, Shanghai Hongqiao International Central Business District, Shanghai Changning District East Hongqiao Development Office, organized by Galleon (Shanghai) Consulting Co., Ltd.

A total of 20 speeches were delivered, attracting the participation of more than 60 enterprises, and more than 200 representatives from domestic and international civil aviation airports, base airlines, intelligent air traffic control technology providers, ground support intelligent equipment providers, terminal intelligent technology and equipment suppliers and other enterprises participated in the meeting to promote the development of the use of intelligence in airports.

Participants said that through this event, they further understood the current hot spots of smart airport industry, met new partners and found new business opportunities. We hope to add to the development of China's smart airport industry by building a platform for technical exchanges, strengthening the interaction between buyers and suppliers, actively solving the problems in the development of the industry through the collision of ideas, and helping the industry to develop steadily.
